

# Buyer Merchandiser Intro Position-Woodstock

## Grocery Department

Woodstock Farmers' Market is a \$9 million a year fresh market operation, with two locations, that sells a wide variety of great food. We are a member of the Good Food Merchants Collaborative (one of only 20 retailers around the country), the Specialty Food Association, the Vermont Fresh Network, Woodstock Chamber of Commerce, Vermont Cheese Council and sundry other organizations.

The Grocery Department is a varied department in Woodstock and handles the merchandising and ordering of Bread, Dairy, Frozen, Refer, Grocery, Wine, and Household items. We handle specialty items shipped directly to us from small vendors from across the country as well as items purchased from larger distributors—and everything in between. We rely heavily on our ECRS inventory management system and work very closely with our Cashiering Department to give our customers amazing service 24/7.

We are a store with a strong mission, clear values and a 10-year vision. We set annual goals. We stress love, respect and trust as a foundation and add a great workplace, responsible sourcing of products, getting involved in our community and responsible finance (open book) as keys to our success. Other key components of our business perspective include focusing on outstanding service, superior training, making and selling amazing, authentic and short channel foods as well as having fun marketing and merchandising all the things we do.
